DETAILED ACTION

Claim Rejections - 35 USC § 112

1. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

2. Claims 5-9, 15, and 16 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In claim 5 line 2, "laser" has no antecedent basis.

In claim 6 line 2, "laser" has no antecedent basis.

In claim 7 line 2, "laser" has no antecedent basis.

In claim 15 line 2, "laser" has no antecedent basis.

In claim 16 line 2, "laser" has no antecedent basis.

Claim Objections

3. Claims 11-82(84) are objected to for the following reasons:
4. The numbering of claims is not in accordance with 37 CFR 1.126 which requires the original numbering of the claims to be preserved throughout the prosecution. When claims are canceled, the remaining claims must not be renumbered. When new claims are presented, they must be numbered consecutively beginning with the number next following the highest numbered claims previously presented (whether entered or not).

Art Unit: 3721

5. On pages 15-22 of the Specification, the original claims 11-82(84) are numbered, lined-through, and renumbered. However, it appears that this renumbering does not correspond with the numbered claims of the preliminary amendment filed 10/26/2001 and entered as Paper Number 7.

6. In order to avoid the possibility of making matters more confusing, the Examiner has not renumbered the claims but requests the Applicant to submit an amendment to clarify the numbering, using the most recent format for amendments (i.e., every claim listed in the amendment along with the appropriate labels: "amended", "original", "cancelled", etc.). The revised format for amendments can be found at

Claim Rejections - 35 USC § 102

7. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

8. Claims 1- 9 are rejected under 35 U.S.C. 102(b) as being anticipated by FISHMAN (EP 483569 A1), which substantially discloses the claimed invention, including covering filled blisters with a cover sheet and sealing same with a laser sealer.
